LAWRENCEVILLE SCHOOL

JOHN C. GREEN FOUNDATION

LAWRENCEVILLE, NEW JERSEY

R E G I S T E R

1892—1893

The Princeton Press

Calendar

1893.

Thursday, January 12, 2 P. M., second term begins.

Wednesday evening, February 22, Annual Contest in Debate, by representatives of Philomathean and Calliopean Societies.

Tuesday evening, April 4, Gymnastic exhibition.

Wednesday, April 5, 12 M., second term ends.

VACATION OF ONE WEEK.

Thursday, April 13, 2 P. M., third term begins.

Commemoration Exercises, extending from Sunday, May 28th, through Tuesday, May 30th.

Wednesday, June 28, 12 M., third term ends.

VACATION OF ELEVEN WEEKS.

Thursday, September 14, 9 A. M., first term begins.

Wednesday, December 20, 12 M., first term ends.

VACATION OF THREE WEEKS.

1894.

Thursday, January 11, 2 P. M., second term begins.

Wednesday, April 4, 12 M., second term ends.

VACATION OF ONE WEEK.

Thursday, April 12th, 2 P. M., third term begins.

NEWTON SMITH NOBLE, Half.
 WILLIAM PETER SCHELL, Half.

The School

ADMISSION.

The standard of scholarship, the methods of instruction, and the rate of work are such that boys whose lack of aptitude for acquiring knowledge is marked, and who have neither fondness for study nor habits of application, should not seek admission to the institution. The School is in no sense a reformatory. Boys who have had a record of failure in other schools are not likely to succeed here.

Applicants for admission to the First Form should ordinarily be at least twelve years of age, and must give evidence of good attainments in spelling, reading, writing, geography, English grammar, and elementary arithmetic. Some knowledge of Latin is of advantage to all candidates for admission to the First Form.

ATTENDANCE.

The day and hour for the opening and closing of the several sessions of the School are given in the School Calendar, and every pupil must arrange his arrival at and departure from the institution accordingly. Parents are earnestly requested not to ask for the absence of their sons from school duties during term-time, but if such absence becomes necessary it should be arranged by letter and not by telegram.

Our work is so carefully planned, and each recitation is believed to be so important that only providential causes for absence or detention should be urged. For the Thanksgiving Recess the time between Wednesday noon and two o'clock Friday is allowed. Boys are not permitted to leave the School on any other Legal Holiday. Sunday in the School has such relations to our daily life and is so marked and provided for that it were better to propose any other day for the absence of a pupil. In the history of the School pupils who have been allowed frequent absence under various pleas have been conspicuous for their failures in appointed duty.

TEACHING.

The instruction of the School is organized into the seven departments of Latin, Greek, Mathematics, English, Modern Languages, Science and Elocution.

Two considerations have contributed to the form and proportions of the course of study announced in this Register:

1. The purpose to provide a training broad enough to prepare students for any American College or Scientific School;
2. The desire to secure a generous and liberalizing development to each student, whatever his ultimate course may be.

Attention is called to the fact, indicated by the Curriculum, that every pupil is required to study Latin during the first three years of the course of instruction;

and, that *pupils are not permitted to pursue special or irregular courses of study*. At appropriate and necessary points in the work of the Fourth Form such modifications may be made as will most fairly conform to the requirements of the college for which the student is preparing. Each of the courses of study extends over four years, but many boys require a longer attendance at the School.

Upon his admission to the School each boy of the First Form is assigned to a desk in the School Study, where lessons are prepared under supervision and with judicious assistance. The knowledge and skill of the Masters will be exercised to aid boys in the formation of habits of continuous and independent study. In the higher Forms boys are relieved from keeping Study Hours with the Masters and encouraged to do their work in the house-studies with the understanding, however, that they shall return to the study under the care of the Masters should their lessons show any marked defect in preparation.

HOUSES.

Pupils lodge and board with the Masters who occupy the Houses of the School. Of these Houses, five are new buildings on the School grounds, and six are comfortable dwellings within easy access of the recitation (Memorial) Hall. The number of boys assigned to a Master's House varies from eight to thirty.

All the boys in a House take their meals with the Master and his family and are intended to be an integral part of his household. The School limits the number in each House so that every boy may be under the immediate personal care and influence of the Master.

UPPER HOUSE.

All members of the Fourth Form, the Graduating Class, are assigned to the Upper House, unless their character and conduct as revealed in the Master's House make them ineligible.

The Upper House therefore is a modified college dormitory and the life of the Fourth Form in this House is intended to prepare Lawrenceville boys for the greater freedom of college students. The Head Master sustains special relations to members of this Form.

HEALTH.

The aim of the courses of study and the methods of instruction require firm health in the boys applying for admission. *Boys in delicate health cannot do our work and cannot be retained in the School*. Lawrenceville is situated in a region noted for its healthful and equable climate and for the purity of its water. The heating, ventilation and sewerage of the new buildings, and the drainage of the school grounds, have been arranged upon the most approved principles of modern sanitary science. The

several properties used by the School comprise about two hundred acres of land, and include extensive grounds for the usual School games.

The daily schedules allot ample time for organized games and recreation and at least one-half of the play time is spent under the direction of a Master, whose duty it is to see that all boys not physically incapacitated shall take a fair share in the sports of their fellows. During three months in the winter pupils exercise in the Gymnasium under the supervision of a Master. These exercises include light gymnastics, and simple military movements without guns or uniforms.

The School maintains an Infirmary equipped for the care of any sick boys, and retains on the ground a Resident Physician and Surgeon, and a trained nurse.

There is on the School property a small body of water which is used for swimming in summer and for skating in winter. Mention should also be made of the School Bath House; and of the Cage for Base Ball and Lacrosse practice in winter.

MORAL AND RELIGIOUS LIFE.

The contact of the Masters with the pupils is so intimate and so constant that in no school is the indolent, impure or harmful boy more likely to be known; and should such boys come to us, they may expect to be speedily dismissed. On the other hand, the Masters will not be contented with merely a survival of the best boys: the Christian ministry of the School recognizes the two offices of teaching and training.

There is systematic instruction in the Bible once a week, during the four years. Pupils of the First Form study the general outlines of Old Testament History; the Second Form study the life of Christ and the labors of the Apostles, together with Biblical Geography and Archæology; the Third Form study the sacred places, persons, rites and times (tabernacle, priesthood, sacrifices, and feasts) of the Bible; and the Fourth Form study the Epistles of the New Testament, together with the Psalms, Proverbs, and Prophets.

The duties of each day begin with religious exercises, conducted by the Head Master, and close with evening prayers in the Houses, conducted by the several House Masters. All the pupils attend Divine Service twice each Sabbath in the School Chapel. These services are under the care of the Head Master.

On each Tuesday evening there are four Class Meetings, maintained by the four forms of the School, and on each Thursday evening there is a general service for the entire School consisting of a brief address and social worship. The Christian Association meets every Sunday for religious exercises. Attendance upon these meetings is voluntary.

The School is not sectarian. The religious aim of the institution is to maintain at least the ordinary moral and religious culture of a Christian home; to promote

manliness, integrity, and a high sense of honor and truthfulness ; and to inspire boys with a genuine respect for all that is sacred.

LIBRARY AND APPARATUS.

The School has a well selected Library, consisting of several thousand standard works of reference and general literature. The Library is open each day in the week for borrowing and consulting books. The equipment of the School includes Charts, valuable apparatus used in teaching Science ; Wall Maps, Photographs, and Charts used in the departments of Latin, Greek, English, History, and Modern Languages ; and Surveying Instruments and the apparatus for illustrating the Metric System in the department of Mathematics.

EXPENSES.

The annual charge for places in the Masters' Houses varies from \$500 to \$600. But the system of the School, the quality of food, and the personal care and supervision of the Masters is substantially and designedly the same in each House. Difference in the annual charge is due to the difference in the value and location of the properties.

For places in any one of the six Houses on the main School grounds (viz., Hamill, Kennedy, Dickinson, Woodhull, Griswold, and Cleve) the annual charge is \$600. For places in any one of the three Houses in the village controlled by the School (viz., Davis, Green, and Rouse) the charge is \$500.

Rooms in the Upper House vary in annual value from \$400 to \$750, according to size and location.

A limited number of eminently promising students are aided in their education by the Foundation Scholarships, which vary in value from \$100 to \$300 a year, according to the need and character of the applicant, but no award can be made or promised before the close of the first term of the year, or after the beginning of the second term.

CURRICULUM

FIRST FORM.

CLASSICAL AND SCIENTIFIC.

<p>LATIN :</p> <p>Grammar and Elementary Exercises in Prose Composition. Cæsar, Gallic War, Book II., with English Exercises based upon the text for retranslation into Latin.</p>	<p>Algebra (Wentworth's School Algebra), Chap. I.-V. Introduction, Addition, Subtraction, Multiplication, Division, Simple Equations of one unknown quantity without fractions.</p>
<p>ENGLISH :</p> <p>Spelling. Punctuation, and use of Capitals. Letter Writing. Reading of English Classics. Compositions.</p>	<p>SCIENCE :</p> <p>Physiology and Hygiene. Physical Geography.</p> <p>Free Hand Drawing.</p> <p>Vocal culture and Vocal Music.</p>
<p>MATHEMATICS :</p> <p>Arithmetic. Factors and Multiples, Fractions, Square Root, Compound Numbers, The Metric System, Percentage, Simple and Compound Interest, Bank Discount, Stocks and Bonds, Ratio and Simple Pro- portion.</p>	<p>ELOCUTION :</p> <p>Reading. Drill in Articulation and Emphasis.</p> <p>BIBLICAL INSTRUCTION :</p> <p>Old Testament History.</p>

SECOND FORM.

CLASSICAL AND SCIENTIFIC.

<p>GREEK: (CLASSICAL.)</p> <p>Grammar and Exercises. White's Lessons. Elementary Composition. Colson's First Greek Reader (50 pages). Anabasis, selections.</p> <p>GERMAN: (SCIENTIFIC.)</p> <p>Grammar and Exercises. Easy Grammar Prose. Brandt's Reader. Karavanc.</p> <p>LATIN:</p> <p>Caesar, Gallic War, Books I., III., IV., V. Ovid, Metamorphoses, 1000 lines. Prose Composition. Sight Reading. Mythology.</p> <p>MATHEMATICS:</p> <p>Algebra, Chap. VI.-XVII. Special cases in Multiplication and Division, Factoring, H. C. F. and L. C. M., Fractions, Simple Equations of one or more unknown quantities, Inequalities, Involution, Evolution, Fractional Exponents, Radicals.</p>	<p>ENGLISH:</p> <p>Elements of Style. Reading of English Classics Compositions.</p> <p>SCIENCE:</p> <p>Botany.</p> <p>ELOCUTION:</p> <p>Reading. Drill in Action and Gesture. Declamations.</p> <p>HISTORY:</p> <p>General History.</p> <p>Free Hand Drawing.</p> <p>Vocal Music.</p> <p>BIBLICAL INSTRUCTION:</p> <p>Outlines of New Testament History. Biblical Geography and Archaeology.</p>
--	--

THIRD FORM.

CLASSICAL.

MATHEMATICS :

Algebra (Wentworth's School Algebra and Wells' College Algebra). Quadratic Equations of one or more unknown quantities and Equations solved like quadratics, Ratio and Proportion, Progressions, Undetermined Coefficients, Permutations and Combinations, Binomial Theorem, Logarithms, The Doctrine of Limits, Continued Fractions, Compound Interest. Arithmetic and Algebra reviewed.

GREEK :

Anabasis, Books II., III., IV.
Greek Prose.
Greek at Sight.
Greek History (Fyffe).
Greek Antiquities (Mahaffy).
Reviews.

LATIN :

Vergil, *Æneid*, Books I.-VI.
Vergil, *Bucolics*.
Prose Composition.
Sight Reading.
Classical Geography.
Reviews.

SCIENTIFIC.

MATHEMATICS :

Algebra (Wentworth's School Algebra and Wells' College Algebra). Quadratic Equations of one or more unknown quantities and Equations solved like quadratics, Ratio and Proportion, Progressions, Undetermined Coefficients, Permutations and Combinations, Binomial Theorem, Logarithms, The Doctrine of Limits, Continued Fractions, Compound Interest. Plane Geometry (Wentworth's). Arithmetic and Algebra reviewed.

Information

Lawrenceville is a small village situated in Mercer Co., New Jersey, about six miles N.N.E. of Trenton. There is telegraphic communication by telephone from Trenton. The trains of the Pennsylvania and Philadelphia and Reading Railroads, running between New York and Philadelphia, stop at Trenton, whence there are four stages each day to Lawrenceville—two starting at ten o'clock in the morning and two at half-past four in the afternoon from the United States Hotel. Parents desiring private carriage to the village should address "Sutphin & LaRue," "Braasch," or "Furman," (Trenton,) for such conveyance as may be desired.

At the opening of the School Year in September, pupils should be in Lawrenceville at least one day earlier than the day appointed for the beginning of the fall session.

No application for admission to the School can be regarded as complete nor can any assignment to a room be made until the parent or guardian shall have sent to the Head Master the testimonial from the candidate's last instructor and the Deposit of \$25, required by the Rules of the School.

Assignment to a particular House and room cannot be made *till towards the close of the summer vacation*. Parents should state at what rate they are willing to pay (*i. e.*, whether \$500 or \$600) and express their preference for a given House or House Master. In all cases this preference will be gratified *if it be possible*. As a rule assignments are made in the chronological order of application.

Rooms in the Houses are furnished with tables, bedsteads (3 x 6 ft.), woven-wire and hair mattresses, pillows (20 x 30 in.), wash-stands, bureaus, chairs, and looking-glasses. Students bring from home 12 napkins, 12 towels, 2 pairs pillow slips, 4 sheets, 2 pairs blankets, and 2 bed spreads. Lamps, crockery, stationery, and necessary books can be purchased in Lawrenceville. Bedding, napkins, and wearing apparel should be distinctly marked.

It is highly desirable that every boy should have at least two pairs of strong, heavy shoes, a pair of rubber boots, a mackintosh (or rubber coat), and a wrapper.

The following are special regulations of the school:

1. Every applicant for admission to the School must bring a testimonial from his last instructor.

2. Pupils must be in Lawrenceville at the time appointed for the beginning of the several sessions of the School, and special marks will be given for every unexcused failure to return as required.

3. When a pupil reaches within a single Half Year the maximum number of misconduct marks which may be imposed upon a member of his form, he shall be suspended from the institution, and the duration of this suspension shall be determined by his previous record in the School. The maximum number of marks for a member of the Fourth Form shall be twenty; for a member of either the Third or Second Form, thirty; and for a member of the First Form, forty.

4. The use of tobacco in any form, or of beer, or of any intoxicating drinks, by any pupil of the School, is prohibited, and may be punished by suspension or dismissal. This rule applies to pupils remaining at the School during vacations.

5. Pupils shall not contract any bills nor borrow any money without the consent of the Head Master.

6. Pupils shall not sell or trade off personal property of any kind without the written permission of the parent and the consent of the Head Master.

7. Absence from town without permission is prohibited, and shall subject the delinquent to suspension, at the discretion of the Head Master.

8. No pupil shall leave the village without a permit, signed by the Head Master, and, in the case of pupils in the Houses, countersigned by the House Master. No permit for absence over night shall be given to any pupil without the written consent of his parent or guardian.

9. During holidays and short vacations pupils who do not go home will not be allowed to leave the School without a written request addressed to the Head Master by their parents or guardians. *Furthermore, no pupil, with or without the parents' permission, will be allowed to spend holidays or short vacations at hotels or boarding houses unless placed under approved supervision.*

10. Any pupil who shall mark, cut, or otherwise deface a School Building or a piece of School property, shall be assessed sufficiently to repair, or replace, the article damaged, and punished for the misdemeanor committed.

11. The School may at any time make a general assessment upon the entire body of pupils to repair damages to property the perpetrators of which cannot be discovered.

At the beginning of the school year parents of boys below the Fourth Form should make a deposit with the Bursar of from twenty-five to fifty dollars, to meet necessary incidental expenses. Money thus advanced will be paid to students upon orders issued by their House Masters, and also in such weekly sums for pocket money, not exceeding fifty cents, as may be directed. A statement of account, with vouchers, will be rendered from time to time by the Bursar.

Students whose parents or guardians do not comply with this regulation may be at times seriously inconvenienced.

Parents are urged not to furnish, or *permit others to furnish*, their sons with an undue amount of money. A boy's needs in our community are few and simple and call for but a small allowance; more than this may seriously harm the pupil and hinder the work of the School. Representations of boys, however innocently made, at variance with these statements are to be distrusted.

The School, therefore, will not retain boys who are encouraged in extravagant habits, and declines to allow more than fifty cents a week as spending or pocket money. Some of our boys receive but ten cents a week for this purpose.

The following is from the Minutes of the Trustees:

"At the time of filing the application for admission, parents or guardians must make a deposit of \$25, which sum will be allowed on the bill for the Half-Year's tuition.

"The annual charge is payable in two equal installments, the first at the beginning and the second at the middle of the school year. The Bursar is authorized, in cases of necessity, to extend the date of payment thirty days; if a further extension of time be desired by a patron, a formal request should be addressed to the President of the Board of Trustees.

Pupils are not received for less than a full Half-Year, and rebate cannot be made for any cause.

Drafts should be made payable to 'Lawrenceville School,' and not to any individual officer of the institution.

Reports of the Scholarship and Deportment of pupils are sent to parents and guardians at the close of each Half-Year, and in cases of deficiency or failure, more frequently.

All correspondence with regard to the standing and deportment of pupils should be immediately with the Head Master.

Foundation Prizes.

First Prizes in Oratory and Debate have the value of \$30, the First Prize in Declamation has the value of \$25. Second and Third Prizes in the several Contests vary from \$8 to \$15.

For the present a complete record of these Contests is published in the Annual Register.
